TRANSPORT IS OUR BUSINESS

## **Globally at your service since 1887**

The spread of the Covid-19 pandemic is having massive repercussions on the whole supply chain as well as on the ability of many companies to maintain adequate stock levels. To help our customers cope with this increasing situation, we at a. hartrodt italiana are pleased to offer immediate availability of warehousing space, a few kilometres from Genoa port, in a fully certified and easily reachable environment.

In addition to pure warehousing services, we also offer personalised and tailor made pick & pack and distribution solutions – nationwide as well as internationally – at competitive conditions.

Operations and full functionality of our offices in Genoa, Milan and Cagliari are guaranteed in smart-working modality wherever possible, to ensure the safety of our staff members and merchandise.

### **Food & Beverage division**

In order to preserve the quality of food & beverage related products, we also offer temperature controlled facilities (0 to +20°C) ideal for the storage of the most sensitive commodities.

The team of a. hartrodt italiana remains available for any further information or quotation for the services proposed.
