

## Sea freight around the world.

**Our sea freight products always offer you the right transport solution – tailored to meet your specific and individual requirements. From the smallest package to the largest machine – we transport them around the world.**

### Sea freight with a. hartrodt

Our extensive range of products is sure to meet every requirement for complex, high quality overseas logistics solutions. Experienced, long-term and professionally competent employees

ensure a smooth and personal service with close customer contact coupled to a global presence which characterizes all our sea freight services.

### Full Container Services

Reliable and well-priced full container transport solutions for each and every commodity - we not only offer global shipment opportunities in standard containers but also in specialized containers such as open-tops, flat-racks and reefers.

### Consolidated Container Services

We offer weekly departures from all main ports as well as many of the smaller ports in our own consolidated container services on attractive terms and the fastest possible transit times.

### Conventional and Ro/Ro Services

Longstanding personal contact with all major shipping companies and specialty service providers, allow us to provide efficient, cost effective conventional and ro/ro services from all major ports as well as many minor ports on a split charter basis.

### Project Services

Own dedicated project management division team allows us to call on experienced professionals to ensure the highest standards of expertise in worldwide project management no matter the shipping requirements.

### Cross Trades

A specialized cross trade shipping team working together with the global hartrodt network of offices and partners ensure that a multitude of worldwide cross trade shipments are efficiently and cost effectively handled.
