

Thuringian products for Vietnam

In Vietnam it was possible to quickly return to normal after very strict Covid 19 measures, as the photo shows.

a. hartrodt Vietnam imported the first shipment of a meat and sausage products manufacturer from Thuringia/Germany to Vietnam.

The shipment, including German specialty sausages such as Thuringia grilled sausage, bock sausage, curry sausage, Franconian mini sausage and BBQ torch sausage with a total volume of 1,709 kgs was transported in a 20" reefer container. It took a week to finish the customs clearance and deliver the cargo to the Vietnamese warehouse of our customer.

Furthermore a. hartrodt Vietnam also arranged another shipment from Austria through Koper port of -21 Celsius frozen bread including olive baguette, pretzel sticks, pumpkin baguette, organic whole meal loaf and many others.

Both customers organized a lunch treat to express their appreciation to our team for the excellent service. The lunch treat included Thuringia grilled sausage, bock sausage and Franconian mini sausage adding on top Schnitzel, pretzels and bread. It was delicious!

Fuzhou representative office

As food trends rapidly change and speed to market becomes increasingly critical, **a. hartrodt Xiamen logistics** was seized this great opportunity setting up Fuzhou representative office on February 18th, 2019. Located in the heart of the Fujian province and as capital city of Fujian Fuzhou is one of the best place for food and beverage production, ingredient manufacturing, cold storage, bonded warehouse and other food and beverage related supply chain activities.

Fuzhou representative office staff composition

Fuzhou representative office is mainly focused on sales activities from North of Xiamen to South of Fujian province, Putian, Ningde and Fuqing area. The reason why we focusing on food and beverage logistics is not only due to good reputations on the market but we know how to handle shipments such as FMCG goods, branded beer or wine. We are experienced in wine and beer import, customs declaration and warehouse management.

Please contact our colleagues in Fuzhou if you need any further information or inquiries.
